4. [Limitation](#)

Features

You can monitor and/or administer your C•CURE 9000 system through a mobile device using C•CURE Go. The mobile device, connected to local WIFI or a VPN on a mobile data network, connects to your C•CURE 9000 system using the CrossFire WF Service.

The C•CURE Go app is available for Apple iOS and Google Android mobile devices from the following app stores:

- Apple App Store
- Google Play Store

Requirements

C•CURE Go supports mobile devices running the following operating systems:

- Apple iOS 13 and higher
- Android OS v7 and higher

NOTE: Your device must have a minimum of 1GB of RAM memory to view video on the C•CURE Go app.

Installation

For more information about installing C•CURE Go, see the *C•CURE 9000 v2.90 C•CURE Go User Guide*.

Limitation

C•CURE Go can only be repaired by uninstalling and then reinstalling C•CURE Go.
